

Technical Data Sheet

Clarion Material Code B

Primary Use

The Clarion B material is our Premium Weatherable Polyester label material. It is primarily used for product safety labeling but is suitable for a variety of applications where high performance and weatherability is a requirement. Such applications include, but are not limited to, barcode labels and rating plates, property ID and asset labeling, warning, instruction, service labels and nameplates for durable goods. The use of the 3M premium UV resistant, weatherable overlamine provides excellent clarity and exceptional protection where UV resistance and long term outdoor durability are required.
