

Technical Data Sheet

Clarion Material Code S2

Primary Use

The Clarion S2 material is our premium .060 (60-mil.) rigid white plastic sign material. It is primarily used for various commercial, industrial and institutional facility signage applications but is suitable for a variety of applications where high performance in an outdoor environment is a requirement. Such applications include but are not limited to facility safety signs, equipment location signs, security signs, environmental awareness sign and construction signs. Clarion S2 material is recommended for mounting to flat surfaces. The use of the 3M Premium WeatherTuff overlaminate provides excellent clarity and exceptional protection where UV resistance and long term outdoor durability are required.
