CLARION SAFETY SYSTEMS PROVIDES NEW SERVICE – CUSTOM TRAINING – THROUGH CLARION SAFETY ASSESSMENT, MACHINE SAFETY AND RISK ASSESSMENT PLATFORM

Clarion Safety has added a custom training service to its machine safety and risk assessment consulting platform, Clarion Safety Assessment.

Milford, PA – August 31, 2021 – Clarion Safety Systems, a leading manufacturer of safety labels, signs, and tags, has expanded its offerings on its machine safety and risk assessment consulting platform, [Clarion Safety Assessment](#), now providing custom training services to machinery manufacturers and workplace safety professionals.

With this new service, Clarion Safety can help to optimize and develop training specific to companies or machines, as well as aid in effective, digitalized delivery and reporting through its learning management system or LMS.

Clarion Safety's Training Services

No matter how advanced a company's training program is – or the challenges they face with keeping pace with the digital age – Clarion Safety can offer support. Its expert team of safety professionals can work together with environmental health and safety professionals or product safety engineers to develop a specific and cost effective program. That may be as simple as converting PowerPoint training slides to an interactive online course, or as detailed as collaborating on a fully customized training portal.

The company's [training services](#) include:

- Evaluating and optimizing a company's training, considering all those who interact with the machinery across its lifecycle, from machine operators to temporary staff, from consultants to safety managers.
- Gathering necessary content related to safety instructions and operational procedures – applying relevant standards and training requirements.
- Designing, delivering, and tracking comprehensive lessons in an accessible, user-friendly format. Clarion Safety offers:
 - Custom video, illustrations, or responsive content creation
 - Delivery through their [ClarionAccess® platform](#) LMS
 - Development of quizzing and reporting

Reducing Risk, Protecting People

“It’s not uncommon for machinery manufacturers, and environmental health and safety professionals alike, to have struggle points around specific areas of their training or implementing a comprehensive program. There are so many areas that must be thoughtfully considered, from the fundamental risk assessment process to compliance requirements to instructional design,” says Ron Crawford, CEO of Clarion Safety. “With this new service, we’re able to consult with clients – applying our years of experience in safety and standards – to address their challenges, helping to deliver the most effective training possible.”

Clarion Safety has a longstanding, 30+ year history of collaborating with customers to implement best practices in relation to an extensive range of product safety standards with the goal of maximizing safety and reducing risk. Clarion Safety Assessment and ClarionAccess® are driven by that same commitment to excellence, punctuated by a track record of working with over 15,000 companies without a single Clarion Safety customer ever facing warnings-based allegations.

As an introductory offer, Clarion Safety is currently offering a free trial to build a training course. More information can be found on ClarionSafety.com.

ABOUT CLARION SAFETY SYSTEMS

Clarion Safety Systems, LLC, is the leading designer and manufacturer of visual safety solutions that help customers in more than 180 industries worldwide to make their products and premises safer. Clarion Safety offers a full range of standard and custom products including machinery safety labels, environmental and facility safety signs, pipe and valve identification markings, lockout/tagout products, and safety-grade photoluminescent egress path-marking escape systems. The company also provides complementary services for comprehensive machine safety, compliance, and risk reduction. Founded in 1990, Clarion Safety continues to play a leading role in the development and writing of international and national standards for safety signs, labels, and markings. It is headquartered at 190 Old Milford Road in Milford, PA, 18337, and online at www.clarionsafety.com.
