**CLARION SAFETY SYSTEMS COLLABORATES WITH THE AMERICAN SOCIETY OF SAFETY PROFESSIONALS
TO ADVANCE SAFETY**

With its new Referral Program, when clients refer the company's best practice safety products to a friend or colleague, Clarion Safety will donate part of the proceeds of the order to the American Society of Safety Professionals.

Milford, PA – March 26, 2019 – Clarion Safety Systems, a leading designer and manufacturer of [safety labels](#), [signs](#) and [tags](#), has launched a new Referral Program, collaborating with the American Society of Safety Professionals (ASSP) to advance safety.

With its new [Referral Program](#), when clients refer the company's best practice safety products to a safety professional in their organization or industry colleague, Clarion Safety will donate part of the proceeds of the order to the charitable arm of ASSP, the ASSP Foundation.

The ASSP Foundation's mission is to provide educational advancement, leadership development, and research opportunities to advance the safety, health, and environmental profession. The ASSP Foundation leads the safety profession on research initiatives that benefit the global community, while also providing educational opportunities, leadership development, and financial resources to benefit safety students and professionals.

"We're proud to be providing our customers with this opportunity to advance safety together with us, as well as to be supporting ASSP Foundation in its mission to expand research and to help develop tomorrow's safety leaders," says Ron Crawford, CEO of Clarion Safety. "Safety is interconnected. While it's our chosen niche, safety doesn't begin or end with the warnings placed on a machine or in an industrial setting. At Clarion Safety, we're committed to being a part of the full dialog on the culture of safety for today's organizations – whether it's through our advocacy with other safety professionals on the latest best practices, leadership within the safety standards development process, or supporting the efforts of groups like ASSP Foundation."

Clarion Safety's line-up of products includes [high quality safety labels, signs and tags](#), as well as [custom printing](#) options. Standard and custom safety products are available through the company's website or through a hands-on approach with its customer service team.

Clarion Safety is in a unique position to supply product manufacturers and workplaces with up-to-date, best practice labels, signs and tags given the company's 25+ year leadership in the field of visual safety

Reducing Risk, Protecting People

communication. It's been a long-term leader of the best practice ANSI and ISO standards, helping to advance the standardization of warnings.

The company's best practice products have proven effectiveness. With 15,000+ clients and nearly 100 million labels and signs in use, zero Clarion Safety customers have had "failure to warn" or "inadequate warnings" allegations brought against them.

Contact Clarion Safety to learn more or visit the company's website to see details on its [Referral Program](#).

ABOUT ASSP

The American Society of Safety Professionals (ASSP) is a global association for occupational safety and health professionals dedicated to creating safe work environments across all industries. For more than 100 years, ASSP has been at the forefront of helping occupational safety and health professionals protect people and property through their efforts to prevent workplace injuries, illnesses and fatalities.

ABOUT CLARION SAFETY SYSTEMS

Clarion Safety Systems is a worldwide leader in product and workplace safety communication. Clarion Safety designs and produces product safety labels and facility safety signs and tags – along with offering complementary solutions and services like safety and risk assessments – needed to reduce risk and protect people. The company also provides a wide range of printing services outside of the safety realm, addressing identification, branding, dataplates, serialization and more, to add value for its customers. With 30 years of safety standards leadership, Clarion Safety has unparalleled knowledge of national and international best practices and codes to meet specific regulatory requirements, from OSHA, ANSI and ISO to WEEE, RoHS and REACH. Its corporate headquarters and state-of-the-art production facility are located in Milford, PA, and products are made in the U.S.A. The company is a registered ISO 9001:2015 manufacturer and offers top 3M materials. For more information, [visit www.clarionsafety.com](http://www.clarionsafety.com).
